CALL FOR ABSTRACTS

Opens: December 1, 2015 – Deadline: March 31, 2016

TECHNICAL PROGRAM AND SPECIAL PUBLICATION

The technical program from Monday to Wednesday will consist of Plenary sessions on two half-days and parallel sessions on four half-days focusing on two overlapping themes; regional tectonics and evolution of the Tethyan belt, and metallogeny and ore deposits of the various sectors of the region.

An SEG Special Publication will consist of papers on the tectonics and metallogeny plus ore deposits of the Tethyan belt from the invited speakers, and will be available for purchase at the meeting.

ORGANIZING COMMITTEE

Mesut Soylu, *Conference Chair*
 Steve Enders, *Conference Vice-Chair*
 Brian Hoal, *SEG Executive Director*
 İlkay Kuşcu, *Technical Program*
 Jeremy Richards, *Publication*
 Bayram Artun, *Field Trips*
 Richard Tosdal, *Course/Workshops*
 Cengiz Demirci, *Student Programs*
 Mehmet Devci, *Social Events*
 Arda Arcasoy, *Administration/Logistics*

THEMES

- Western Tethyan metallogeny
- Tectonics of Tethyan oceans and ophiolites
- Central Tethyan metallogeny
- Tectonics of Cretaceous and Tertiary Tethyan arcs
- Eastern Tethyan metallogeny
- Collisional tectonics in the Tethyan orogen
- Tethyan sedimentary basins and supergene environments
- Cradle of mining: Exploration and development to the present

WORKSHOPS

- Epithermal deposits
- Porphyry deposits
- Structure
- Physical volcanology
- Exploration geochemistry
- Mineral economics
- Exploration geophysics

FIELD TRIPS

- Borate deposits of western Turkey
- Biga Peninsula: Au, Cu, Mo, and Pb-Zn deposits
- Tour of western Turkey with a mix of porphyry and epithermal deposits
- Central Anatolian magmatism and Au deposits
- VMS deposits of Pontides
- Eastern Turkey: Mix of porphyry, epithermal and skarn deposits
- Balkans I: Tour of Greek and Bulgarian porphyry and epithermal deposits and recent discoveries
- Balkans II: Tour of Bor Complex
